

# Product Data Sheet

Product: 170FP

| Items                        | Requirements                                                                                 | Results               | Judgement |
|------------------------------|----------------------------------------------------------------------------------------------|-----------------------|-----------|
| Physical Description         | Transparent, black viscous liquid;<br>Transparent liquid and white powder<br>four components | Meet the requirements | Qualified |
| DIN Abrasion mm <sup>3</sup> | ≤160                                                                                         | 135                   | Qualified |
| Tensile Mpa                  | ≥9                                                                                           | 11                    | Qualified |
| Elongation %                 | ≥250                                                                                         | 274                   | Qualified |
| Hardness SH A                | 75-85                                                                                        | 85                    | Qualified |
| Adhesion N/mm                | ≥6                                                                                           | 9.7                   | Qualified |
